Part I. The Machine That Decides.....1

1. One Small Step.....3

1.1 The Oldest Trick in Computing.....5
1.2 Programs as State Transitions.....6
1.3 Everything Is Secretly a Loop.....8
1.4 What “Frozen” Means.....9
1.5 Where Guarantees Have Traditionally Come From.....10
1.6 The First Crack in the Ice.....11
1.7 Lab: A Loop You Can Trust.....12
Where We’ve Landed.....16
What’s Next.....16

2. The Ghost in the Loop.....19

2.1 One Line of Difference.....20
2.2 A Policy, Not an Oracle.....21
2.3 Two Species of Wrong.....22
2.4 How to Make a Poet Fill In a Form.....23
2.5 The Shell Stays Frozen.....24
2.6 G(body), Named.....25
2.7 Lab: Melting the Meridian Loop.....26
Where We’ve Landed.....31
What’s Next.....32

3. What the Machine Knows.....33
3.1 Five Kinds of State.....35
3.2 What Counts as an Observation.....36
3.3 Who Told You That?.....37
3.4 The Common Envelope.....38
3.5 The World Moves On.....39
3.6 Lab: Three Sources, One Truth.....40
Where We've Landed.....43
What's Next.....43

4. The Art of the Next Move.....45
4.1 The Decision Surface.....46
4.2 Planning versus Acting, and the Price of Thinking.....48
4.3 Acting: Where the Loop Touches the World.....49
4.4 The Loop Closes: Feedback as New State.....51
4.5 Lab: The Meridian ODA Runtime.....52
Where We've Landed.....54
What's Next.....55

Part II. Loops in the Wild.....57

5. A Field Guide to Loops.....59
5.1 The Common Ancestor.....60
5.2 The Tool-Use Loop.....61
5.3 The Coding Loop.....62
5.4 The Research Loop.....63
5.5 The Verification Loop.....64
5.6 Choosing Your Species.....65
5.7 Lab: The Meridian Research Loop.....66
Where We've Landed.....69
What's Next.....69

Part III. The Craft.....71

6. Prompts Are Policies.....73
6.1 The Anatomy of a Policy.....75
6.2 Modularity and Versioning.....76
6.3 Regression-Testing a Paragraph.....77
6.4 Injection: A Policy Failure Before a Security Failure.....78
6.5 Portability.....79
6.6 Lab: A Paragraph on Trial.....80
Where We've Landed.....82
What's Next.....83

7. The Instruction Set.....85
7.1 The Analogy, Taken Seriously.....87
7.2 Granularity: The RISC Question.....88
7.3 The Contract.....89
7.4 Privilege and Sandboxes.....90
7.5 Discovery in a Fixed Catalog.....91
7.6 Watching the Instruction Stream.....92
7.7 Lab: Two Menus.....92
Where We've Landed.....95
What's Next.....96

8. Working Memory.....97
8.1 The Anatomy of the Window.....99
8.2 Assembly: The Render Grows Up.....100
8.3 Retrieval.....101
8.4 Summarization and Compression.....101
8.5 Poisoning and Isolation.....103
8.6 Budgets and Observability.....104
8.7 Lab: Two Renders.....104
Where We've Landed.....107
What's Next.....107

9. The Exoskeleton.....109
9.1 The Model Is Not the Agent.....110
9.2 The Suit, Assembled.....111
9.3 Harness Patterns.....112
9.4 Portability.....113
9.5 Lab: The Signature Build.....114
Where We've Landed.....116
What's Next.....117

Part IV. Keeping It Honest.....119

10. Knowing When to Stop.....121
10.1 The Two Deaths.....122
10.2 The Stopping Stack.....123
10.3 The Proposal Rule.....125
10.4 Stopping as a Design Object.....126
10.5 Lab: The Word for Enough.....126
Where We've Landed.....129
What's Next.....129

11. When Loops Go Wrong.....131
11.1 The Shape of the Bestiary.....133
11.2 Failures of Action.....133
11.3 Failures of Motion.....133
11.4 Failures of the Picture.....135
11.5 Failures of the Objective.....135
11.6 Loops Meeting Loops.....136
11.7 The Recovery Ladder.....137
11.8 Lab: The Pathology Bench.....139
Where We've Landed.....141
What's Next.....141

12. Trust, but Verify.....143
12.1 The Verifier Ladder.....144
12.2 Judges and Their Calibration.....145
12.3 The Gate as Teacher.....147
12.4 Evaluation: From Outputs to Trajectories.....147
12.5 The Threat Model.....148
12.6 Defenses That Do Not Ask Nicely.....149
12.7 The Verification Debt Ledger.....151
12.8 Lab: The Incident, Twice.....151
Where We've Landed.....155
What's Next.....155

13. The Price of a Thought.....157
13.1 What a Step Costs.....158
13.2 Meter One: The Price of Depth.....159
13.3 Meter Two: The Value of One More Try.....160
13.4 Meter Three: The Honest Denominator.....161
13.5 The Fourth Currency.....162
13.6 Lab: Reading the Meter.....163
Where We've Landed.....165
What's Next.....166

Coda. The Agent Is Still Frozen.....167
The margin, collected.....168
What an agent actually is.....169
The zoo.....169
The question.....170

A. The Minimal Agent Runtime.....173
Running it.....173
What is where.....174

The fourteen lines that swap the model....175
Extending it....175
What it deliberately does not do....176
The File, Complete....176

B. Tool Schema Patterns....187
The six-field entry....187
Naming....187
Argument schemas....188
Descriptions, which are read at runtime....188
Error contracts....188
Contract tests....189

C. State Schema Patterns....191
The common envelope....191
The five kinds of state....191
Freshness and reconciliation....192
Serialization....192

D. Context Engineering Checklist....193

E. Evaluation Recipes....195
Recipe 1: the charter battery....195
Recipe 2: growing the battery from incidents....195
Recipe 3: trajectory properties....195
Recipe 4: judge calibration....196
Recipe 5: fleet telemetry....196
Recipe 6: cost evaluation....196

F. Security Checklist....197

G. Observability Event Schema....199

H. Production Readiness Checklist....201

I. The Labs, Complete....203
Lab 1: A Loop You Can Trust....203
Lab 2: Melting the Meridian Loop....206
Lab 3: Three Sources, One Truth....210
Lab 4: The Meridian ODA Runtime....214
Lab 5: The Meridian Research Loop....219
Lab 6: A Paragraph on Trial....225
Lab 7: Two Menus....230
Lab 8: Two Renders....235
Lab 9: The Signature Build....238

Lab 10: The Word for Enough.....245
Lab 11: The Pathology Bench.....248
Lab 12: The Incident, Twice.....251
Lab 13: Reading the Meter.....258
