Preface	x
What I found, and why it took a book.....	x
How this book is built.....	xi
What this book is not.....	xii
A word on the series, and on honesty.....	xii
Who I hope reads it.....	xiii
Conventions Used in This Book.....	xiii
Using Code Examples.....	xiv
Thanks.....	xiv
 Part I. The Machine That Decides	1
 1. One Small Step	2
1.1 The Oldest Trick in Computing.....	4
1.2 Programs as State Transitions.....	5
1.3 Everything Is Secretly a Loop.....	7
1.4 What “Frozen” Means.....	8
1.5 Where Guarantees Have Traditionally Come From.....	9
1.6 The First Crack in the Ice.....	10
1.7 Lab: A Loop You Can Trust.....	11
Where We’ve Landed.....	15
What’s Next.....	15
 2. The Ghost in the Loop	17
2.1 One Line of Difference.....	18
2.2 A Policy, Not an Oracle.....	19
2.3 Two Species of Wrong.....	20
2.4 How to Make a Poet Fill In a Form.....	21
2.5 The Shell Stays Frozen.....	22
2.6 G(body), Named.....	23
2.7 Lab: Melting the Meridian Loop.....	24
Where We’ve Landed.....	29
What’s Next.....	30

3. What the Machine Knows	31
3.1 Five Kinds of State	33
3.2 What Counts as an Observation	34
3.3 Who Told You That?	35
3.4 The Common Envelope	36
3.5 The World Moves On	37
3.6 Lab: Three Sources, One Truth	38
Where We've Landed	41
What's Next	41
4. The Art of the Next Move	42
4.1 The Decision Surface	43
4.2 Planning versus Acting, and the Price of Thinking	45
4.3 Acting: Where the Loop Touches the World	46
4.4 The Loop Closes: Feedback as New State	47
4.5 Lab: The Meridian ODA Runtime	49
Where We've Landed	51
What's Next	52
Part II. Loops in the Wild	53
5. A Field Guide to Loops	54
5.1 The Common Ancestor	55
5.2 The Tool-Use Loop	56
5.3 The Coding Loop	57
5.4 The Research Loop	58
5.5 The Verification Loop	59
5.6 Choosing Your Species	60
5.7 Lab: The Meridian Research Loop	61
Where We've Landed	64
What's Next	64
Part III. The Craft	65
6. Prompts Are Policies	66
6.1 The Anatomy of a Policy	68
6.2 Modularity and Versioning	69
6.3 Regression-Testing a Paragraph	70
6.4 Injection: A Policy Failure Before a Security Failure	71
6.5 Portability	72
6.6 Lab: A Paragraph on Trial	73
Where We've Landed	75
What's Next	76

7. The Instruction Set	77
7.1 The Analogy, Taken Seriously	79
7.2 Granularity: The RISC Question	80
7.3 The Contract	81
7.4 Privilege and Sandboxes	82
7.5 Discovery in a Fixed Catalog	83
7.6 Watching the Instruction Stream	84
7.7 Lab: Two Menus	84
Where We've Landed	87
What's Next	88
8. Working Memory	89
8.1 The Anatomy of the Window	90
8.2 Assembly: The Render Grows Up	92
8.3 Retrieval	93
8.4 Summarization and Compression	93
8.5 Poisoning and Isolation	95
8.6 Budgets and Observability	96
8.7 Lab: Two Renders	96
Where We've Landed	99
What's Next	99
9. The Exoskeleton	100
9.1 The Model Is Not the Agent	101
9.2 The Envelope, Assembled	102
9.3 Harness Patterns	103
9.4 Portability	104
9.5 Lab: The Signature Build	105
Where We've Landed	107
What's Next	108
Part IV. Keeping It Honest	109
10. Knowing When to Stop	110
10.1 The Two Deaths	111
10.2 The Stopping Stack	112
10.3 The Proposal Rule	114
10.4 Stopping as a Design Object	115
10.5 Lab: The Word for Enough	115
Where We've Landed	118
What's Next	118

11. When Loops Go Wrong	120
11.1 The Shape of the Bestiary	122
11.2 Failures of Action	122
11.3 Failures of Motion	122
11.4 Failures of the Picture	124
11.5 Failures of the Objective	124
11.6 Loops Meeting Loops	125
11.7 The Recovery Ladder	126
11.8 Lab: The Pathology Bench	128
Where We've Landed	129
What's Next	130
12. Trust, but Verify	131
12.1 The Verifier Ladder	132
12.2 Judges and Their Calibration	133
12.3 The Gate as Teacher	135
12.4 Evaluation: From Outputs to Trajectories	135
12.5 The Threat Model	136
12.6 Defenses That Do Not Ask Nicely	137
12.7 The Verification Debt Ledger	139
12.8 Lab: The Incident, Twice	139
Where We've Landed	142
What's Next	143
13. The Price of a Thought	144
13.1 What a Step Costs	145
13.2 Meter One: The Price of Depth	146
13.3 Meter Two: The Value of One More Try	147
13.4 Meter Three: The Honest Denominator	148
13.5 The Fourth Currency	149
13.6 Lab: Reading the Meter	150
Where We've Landed	152
What's Next	153
Coda. The Agent Is Still Frozen	154
The margin, collected	155
What an agent actually is	156
The zoo	156
The question	157
A. The Minimal Agent Runtime	159
Running it	159
What is where	160

The five lines that swap the model.....	161
Extending it.....	161
What it deliberately does not do.....	162
The File, Complete.....	162
B. Tool Schema Patterns.....	172
The six-field entry.....	172
Naming.....	172
Argument schemas.....	173
Descriptions, which are read at runtime.....	173
Error contracts.....	173
Contract tests.....	173
C. State Schema Patterns.....	174
The common envelope.....	174
The five kinds of state.....	174
Freshness and reconciliation.....	175
Serialization.....	175
D. Context Engineering Checklist.....	176
E. Evaluation Recipes.....	178
Recipe 1: the charter battery.....	178
Recipe 2: growing the battery from incidents.....	178
Recipe 3: trajectory properties.....	178
Recipe 4: judge calibration.....	179
Recipe 5: fleet telemetry.....	179
Recipe 6: cost evaluation.....	179
F. Security Checklist.....	180
G. Observability Event Schema.....	182
H. Production Readiness Checklist.....	183
I. The Labs, Complete.....	185
Lab 1: A Loop You Can Trust.....	185
Lab 2: Melting the Meridian Loop.....	188
Lab 3: Three Sources, One Truth.....	192
Lab 4: The Meridian ODA Runtime.....	195
Lab 5: The Meridian Research Loop.....	201
Lab 6: A Paragraph on Trial.....	207
Lab 7: Two Menus.....	211
Lab 8: Two Renders.....	217
Lab 9: The Signature Build.....	220

Lab 10: The Word for Enough.....	226
Lab 11: The Pathology Bench.....	230
Lab 12: The Incident, Twice.....	233
Lab 13: Reading the Meter.....	239
